

Clever software solutions that really work

with the TA Triumph-Adler EduPack

Control student and teacher printing and 'pay-for-print' with the EduPack

Anyone associated with providing education services will be aware of the need to control document output, account for and charge back for prints, copies and scans. With the EduPack, we can provide software that will track and manage these services as well as BYOD (bring your own device) facilities.

Department billing and 'follow-me' printing

Imagine you need to print a large number of documents but you need to make sure the correct department is billed. The EduPack can provide software and services that account for document output for administrators and provide a student billing option with print room job tickets or pay for print in areas such as libraries or Learning Resource Centres.

Learn how to manage your documents with our solutions

The TA Triumph-Adler EduPack gives your establishment complete control over document output [print and copy], document input [scanning and management] including - 'A'ccountabilty - 'B'YOD - 'C'ontrol - The EduPack, really is as easy as ABC.
